

PICOCLEAN UTC

Multipurpose Industrial Grade Cleaner

GENERAL DESCRIPTION:

PICOCLEAN UTC is an environmentally friendly, industrial grade concentrated cleaner for dissolving and removing grease, oil, dirt, etc. from ferrous, non-ferrous metals, glass, plastic, concrete, and a variety of other surfaces.

PICOCLEAN UTC is also recommended to remove a wide variety of water and petroleum-based oils, coolants, rust preventives, drawing / stamping lubricants, etc., from all metals.

PICOCLEAN UTC provides a fast, thorough cleaning to cut through soils and rinses clean and complete to prevent redeposition of the soils.

PICOCLEAN UTC is formulated with non-hazardous, biodegradable, and safe-to-use additives that replace hazardous, corrosive cleaners and/or flammable solvents.

PICOCLEAN UTC economical and effective use can replace and consolidate multiple products all in one single product.

PRODUCT FEATURES AND BENEFITS:

- Non-corrosive
- High detergency
- Soluble in all waters
- Safe at all temperatures
- Biodegradable
- Non-flammable
- Environmentally friendly
- Safe on all metals, glass and plastic

PRODUCT APPLICATION:

PICOCLEAN UTC can be used "as received" or diluted as low as 2% into hot or cold tap water, depending upon type and buildup of soil, removal application, temperature, exposure time, and severity of cleaning required.

PICOCLEAN UTC is used by brush, soak, spray, or in mechanical scrubbing machines.

PICOCLEAN UTC forms a stable, low-foaming solution and offers a clean and complete water rinsing.

TYPICAL PHYSICAL AND CHEMICAL PROPERTIES:

Appearance and Odor:	Clear blue-green liquid with mild odor
Weight / Gallon:	8.33 lbs. / gal. @ 77°F (25°C)
Application Temperature:	Ambient to 210°F (99°C)
Application:	Brush, soak, spray, or scrub
pH (as is):	9.5
Solubility in Water:	Complete
